CLV104K

HDMI A male - HDMI A male - active 4K

Highlights:

- Flexible PVC jacket
- 0.35 " (Ø) outer diameter
- Integrated chipset for 4K transmission up to 15 meters

Product information:

The CLV104K classic series HDMI™ cable guarantees TRUE 4K Ultra HD video interconnections with cinema resolutions up to 4K@30 4:4:4 (2160p) full 18 Gbps for distances up to 15 meter. It complies to the highest available standards in HDMI supporting ethernet, audio return channel, 32 channel audio, CEC, 3D and is backward compatible with other HDMI specifications. The connector on the display side includes an integrated repeater chipset in the connector molding, making it reach high resolution requirements at long distances which are unachievable using regular HDMI cables. The cable is uni-directional, with the repeater side to be connected to the display, while the combination of gold plated contacts with oxygen free copper conductors and triple shielding guarantees an optimal performance and high immunity against noise and interference caused by external devices.
