Product information:

The PRA735 is a high-quality microphone cable constructed using the ultra flexible PMC224 cable with break out and fitted with Neutrik NC3FXX-BAG and 2 times the Neutrik NC3MXX-BAG (Silver contacts, black metal XLR housing) connectors. The 24 AWG (0.22 mm²) thin & Dense stranded bare copper conductors are surrounded by a high coverage spiral shielding. In combination with the thick and soft PVC outer jacket, this provides a flexible but solid feel. The high-purity copper, high-coverage shielding and low capacitance guarantee an optimal signal transmission. The attached shrink sleeve allows custom labeling for easy identification. It comes in 1 length of 1.5 meter, providing solutions for all applications.
