PROMO6A-CMC122

Sample pack CMC122

Product information:

1 meter sample pack of the CMC122. The CMC122 is a high quality microphone cable featuring a Flamoflex™ outer jacket compliant to the IEC 60332-1 standard regarding fire and flammability resistance in public installations. The Flamoflex™ material is specifically designed with installers convenience in mind, offering a smooth and durable outer jacket for easy installation and pulling. This cable features a 22 AWG twisted pair with shielding. The CMC122 consists of solid conductors with aluminum foil shielding and drain wire, which guarantees the highest installer convenience when terminating with connectors. This cable features a highly effective shielding with excellent immunity against noise and interference caused by external devices. The tinned copper conductor material significantly improves the corrosion and oxidation resistance of the cable, allowing it to be used indoors as well as in outside, in humid or marine environments.
