PROMO6D-CCT70S

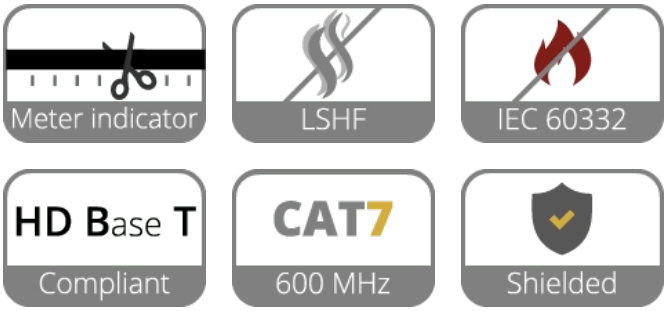

Sample pack CCT70S

Product information:

1 meter sample pack of the CCT70S. The CCT70S is a CAT7 installation networking cable featuring a Flamoflex™ outer jacket compliant to the IEC 60332-1 standard regarding fire and flammability resistance in public installations. The Flamoflex™ material is specifically designed with installers convenience in mind, offering a smooth and durable outer jacket for easy installation and pulling. The conductor section of the CCT70S consists of 4 pairs with stranded 23 AWG conductors which are individually shielded by an aluminum foil while the entire section is surrounced by an overall braiding. Due to the double shielding, better performance in terms of crosstalk and system noise is achieved resulting in a higher bandwidth and improved immunity against noise and interference caused by external devices. Supports 10Base-T, 100Base-TX and 1000Base-T gigabit networks.

Properties:

Inner Conductors:

Shielding:
