PROMO6V-PCX165

Sample pack PCX165

Product information:

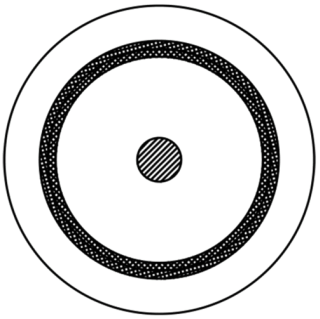

1 meter sample pack of the CCX160 which is an RG6/U coaxial video cable specifically designed for 12G SDI video transmissions in both mobile applications and fixed installations for 4K UHD resolutions. Its Highflex™ PVC outer jacket in combination with other high-grade materials guarantee great flexibility, long service life span and accurate signal transmission under all circumstances. The conductor section composed of an 18 AWG silver-plated copper conductor guarantees a reliable signal transmission for the highest frequencies and is surrounded by a foamed polyethene isolator. The dual braided overall shielding consists of two individual layers with a coverage percentage of 95%, guaranteeing the best possible immunity against noise and interference. Compatible with Neutrik NBNC75BTU11.

Product Features:

Application	AV & IT
	Rental & MI
Series	Bulk & Accessories
