

### Highlights:

- 18 AWG thin and dense stranded conductors
- Parallel & separable wires
- Color coded polarity identification

### Product information:

The RZ series cables are parallel designed loudspeaker cables with a maximum flexibility and strength. They are mostly used for indoor applications. Each conductor is fitted with a highly flexible jacket of PVC. The two parallel conductors are available in black, white or gray and one of the two has a thin line to identify the polarity. The RZ series cables are “all-round” loudspeaker cables suited for all kinds of applications on loudspeaker level.
